Re: Continued Success

Dear Josh,

I wanted to take a moment to thank you, your partners and your staff for the services that you have provided. Over the past several years, your services have allowed me find a financial satisfaction that I had not had previous to working with you. The meetings and continued partnership in my practice has enabled me to focus more on surgeries and services that I specialize in, specifically the Gamma Knife, Tumor removal, Parkinson's Treatment, etc.

I also want to make note that your coding knowledge and documentation reviews of the sub-specialty services that I provide have had a great impact on my practice's financial success. This has helped us to continually grow our practice with confidence that we are capturing maximum revenue for each and every service that we provide.

Continued honesty and ethics is the key to our success. Again, thank you for being a partner in my practice and let's continue this success for many years to come.

Sincerely,

Christopher Duma, M.D.
